

Wilson's Farm Market

2012 Community Supported Agriculture Application

Please print this application, complete and mail to the address provided with your payment.

Conditions

Wilson's Farm Market agrees to plant, grow, harvest and supply shares of fresh fruits and vegetables for a 16 week period from July through October to all CSA members. Wilson's will provide local beef, cider and cheeses from other Harford County producers to the CSA members occasionally, as added value to your weekly share. At Wilson's Farm our crops are raised conventionally, though we implement sustainable agricultural practices to reduce the use of pesticides and herbicides. The crops to be planted and harvest schedule will roughly follow the enclosed chart. There is the possibility that some crops will partially or tally fail due to Mother Nature. If inclement weather or other factors prevent harvest for scheduled pick up days, Wilson's Farm Market will contact members to reschedule.

Wilson's offers two pick up days as well as additional share options for eggs and cut flowers. Please refer to the application for choices and selection.

Agreement

I have read and understand the above conditions and agree to pick up my produce on my selected day. I understand that shares cannot be personalized, and that if I fail to pick up my produce at the allocated time, it will be considered surplus and donated elsewhere. I understand that my weekly share will consist of an assortment of produce, depending upon what is mature and available. This is a commitment between Wilson's Farm CSA and me and I recognize that I will share in the risks of the crops being grown for this CSA along with the other members. I understand my payment is non-refundable.
